

Organic Sunflower Seed Kernels are produced from high-quality organic sunflower seeds that are cleaned, dehulled, and sorted using advanced processing technology. With a mild nutty flavor, natural color, and excellent nutritional profile, sunflower seed kernels are widely used across snack foods, bakery, cereals, and oil extraction.

As a trusted supplier in the plant-based ingredient industry, **HEMPLAND** offers premium quality, stable supply, and full documentation support for global food manufacturers, wholesalers, and brands.

KEY FEATURES & BENEFITS

- 100% organically grown sunflower seeds
- Non-GMO, vegan, and gluten-free
- Mild, pleasant nutty flavor
- High in protein, healthy fats, and minerals
- Clean-label and allergen-friendly
- Multiple grades available to suit various applications

AVAILABLE GRADES

HEMPLAND supplies commonly requested industrial and snack-use grades:

- **Confectionery Grade** - Premium large kernels for snacks, bakery, retail
- **Bakery Grade** - Ideal for bread, granola, and cereal manufacturing
- **Ingredient Grade** - For further processing or oil pressing
- **Inshell-to-Kernel Custom Orders** - On request

TECHNICAL SPECIFICATIONS (*Industry Standard Reference*)

Parameter	Specification
Appearance	Light grey-green kernels
Flavor / Odor	Fresh, nutty, natural
Moisture	≤ 8.0%
Purity	≥ 99.0%
Imperfect Kernels	≤ 2%
Broken Kernels	≤ 5% (customizable)
Foreign Matter	≤ 0.1%
Admixture	≤ 0.5%
Aflatoxin (B1)	< 2.0 µg/kg
Total Plate Count	≤ 10,000 CFU/g
Yeast & Mold	≤ 100 CFU/g
E. coli	Negative
Salmonella	Negative
Heavy Metals	In compliance with food safety regulations
Shelf Life	12-24 months

Parameter	Specification
Packaging	25kg bags / cartons / bulk options
Storage	Cool, dry, well-ventilated location

FUNCTIONAL BENEFITS

- Adds crunchy texture and natural flavor
- Enhances nutritional value in formulations
- Excellent for clean-label and vegan products
- High oil content suitable for pressing
- Ideal for large-scale food production

APPLICATION AREAS

- Snack foods & trail mixes
- Bakery products & cereals
- Nut-free bar formulations
- Health food manufacturing
- Cold-pressed sunflower seed oil
- Retail packaging and roasting lines
- Plant-based food formulations

CERTIFICATIONS & COMPLIANCE

HEMPLAND provides:

- Organic Certificates
- COA
- MSDS
- Specification Sheet
- Halal / Kosher (upon request)

BULK SUPPLY & OEM SERVICE

We provide:

- Bulk & wholesale supply
- Private label & retail packing
- Customized sorting & grading
- Long-term supply contracts
- Full export support for global buyers

☐☐☐ (FAQ)

Q: Are your Organic Sunflower Seed Kernels truly nut-free and suitable for allergen-sensitive facilities?

A: While we guarantee our **Organic Sunflower Seed Kernels** are naturally nut-free, cross-contamination prevention depends on your specific facility's practices. We ensure stringent protocols on our end to minimize cross-contact with common allergens during processing and packaging. Please discuss your specific allergen protocols with our sales team.

Q: What is the typical shelf life and recommended storage for bulk quantities?

A: Our **Organic Sunflower Seed Kernels** typically have a shelf life of **12-18 months** from the manufacturing date when stored in a cool, dry place (below 75°F / 24°C), away from direct sunlight and strong odors, in their original sealed, airtight packaging. Refrigeration or freezing can extend shelf life, especially after opening.

Q: Can these kernels be roasted or seasoned by the buyer?

A: Yes, our kernels are supplied **unroasted and unsalted**, making them ideal for further processing such as roasting, seasoning, or incorporation into complex formulations, giving you full control over the final product.

Q: Is your Organic Sunflower Seed Kernels non-GMO?

A: Yes, as a certified organic product, our **Organic Sunflower Seed Kernels** are inherently **Non-GMO**, as they are derived from organically cultivated sunflowers grown without genetically modified organisms.

Q: What are the main benefits of using sunflower seeds compared to other nuts or seeds?

A: Sunflower seeds offer a unique combination of **Vitamin E**, **selenium**, and **magnesium**, making them particularly beneficial for antioxidant and heart health. They are also a popular and safe **allergen-friendly alternative** to tree nuts and peanuts, catering to a wider consumer base.
