hemp seed oil?

hemp seed oil is derived from the seeds of the hemp plant (*Cannabis sativa*). It is a natural, nutrient-rich oil that is commonly used in cooking and as a dietary supplement.

- **Cold Pressed:** This type of oil is extracted without the use of heat, which helps to preserve its natural nutrients and flavor.
- **Refined:** This type of oil is extracted using heat and chemical solvents, which can remove some of its natural nutrients and flavor.
- **Hemp Heart Oil:** This is a concentrated form of hemp seed oil, typically made from the hearts of the hemp seeds.

Hemp seed oil is rich in omega-3 and omega-6 fatty acids, which are essential for heart health and brain function. It also contains vitamins E and K, and antioxidants.

Hemp seed oil is a versatile oil that can be used in a variety of ways. It can be used for cooking, baking, and as a salad dressing. It can also be used as a dietary supplement.

### Q: Can I cook with Organic Cold Pressed Hemp Seed Oil?

A: **Organic Cold Pressed Hemp Seed Oil** has a low smoke point and is best used as a finishing oil or in raw applications like dressings and smoothies to preserve its delicate nutrients.

### Q: What's the best way to store Organic Hemp Seed Oil?

A: All **Organic Hemp Seed Oil** types should be stored in a cool, dark place, away from direct light and heat. Refrigeration is recommended after opening to extend freshness, especially for cold-pressed varieties.

### Q: Is there a difference in nutritional content between the three oils?

A: While all contain essential fatty acids, **Organic Cold Pressed Hemp Seed Oil** retains the most vibrant profile of chlorophyll and other plant compounds. **Refined Hemp Seed Oil** has some nutrients removed during processing, while **Organic Hemp Hearts Oil** offers a slightly different balance due to being pressed from hulled seeds.

**Q: Can Organic Hemp Seed Oil be used topically for skin or hair?**

A: Absolutely! All our **Organic Hemp Seed Oil** varieties are excellent for topical use. **Refined Hemp Seed Oil** is often preferred for skincare due to its neutral scent and lighter feel, but cold-pressed and hemp hearts oil can also offer nourishing benefits.

**Q: Is Organic Hemp Seed Oil the same as CBD oil?**

A: No, **Organic Hemp Seed Oil** is pressed from the seeds of the hemp plant and primarily contains essential fatty acids, vitamins, and minerals. CBD oil (cannabidiol oil) is extracted from the flowers, leaves, and stalks of the hemp plant and contains cannabinoids. They are distinct products with different primary benefits.
